

# INTRODUCING Solar Energy Storage

## STORZ POWER SMART SOLAR ENERGY STORAGE SYSTEMS

Selling Solar Energy Storage Systems just got easier. Storz Power offers flexible home energy package options to meet every home storage energy need, with an easy to configure visual interface to build the perfect package every time.

Sell Storage  
with  
Confidence

Easily  
Size and  
Embed Loan  
Calcs

### Sell Storz Power AI+ Solar Energy Storage Systems with Confidence & Ease

- ✓ Quote batteries easily and accurately
- ✓ Customize storage solutions for customer needs
- ✓ Easily size and embed loan calcs
- ✓ Fast-growing, innovative storage solution
- ✓ Solar Storage Solutions are available to all Enerflo partners\*

STORZ POWER

## Two Great Solutions, One High-Performance Integration

Through a deep integration with Storz Power, Enerflo is now able to offer Storz Power AI+ Smart Solar Energy Storage Systems through its native Optimus Proposal Tool. The integration is an Enerflo first with a solar storage manufacturer and will enable quicker, easier solar energy storage system sales through the Enerflo Platform.

**AI+  
Technology**

Smart and  
Efficient

**12K or 15K  
Inverters**

Based on Total  
Amps Needed

**5 - 840  
kWh**

100% Depth of Discharge  
98% Round Trip Efficiency

**Expandable  
Systems**

1-12 Inverters  
Up to 14 Batteries per Inverter

## Flexible Home Energy Packages to Meet Every Home Energy Storage Need

Like Enerflo, Storz Power's Solar Energy Storage Systems are Industry Leading

- ✓ Storz Power products provide the highest and most efficient energy storage (Up to 840 kWh) capacity available today.
- ✓ Unsurpassed converter power outputs that accommodate AC & DC coupling, eliminating the need for additional conversion equipment, and reduces power losses.
- ✓ The Smart Access App provides customers with control over their energy usage at the appliance level.
- ✓ Storz Power Energy Storage Systems are both smaller and lighter than other comparable systems.
- ✓ Storz Power products are made using Lithium-Iron Phosphate (LFP), one of the safest chemistries for home battery storage in the market today.

*Storz Power training (30-60 mins only) is required for sales reps and installers*
