

Cut Delays, Boost Installs

Enerflo + IGS Solar

Enerflo + IGS Solar have teamed up to make your projects smoother from sale to PTO — with IGS Solar's competitive TPO financing now built right into the Enerflo Platform.

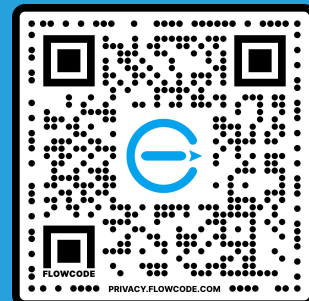

The Enerflo + IGS Solar Integration Gives You the Power to:

- ✓ **Access IGS TPO products instantly** — no tool-switching or extra logins.
- ✓ **Speed up the sales cycle** with seamless proposals, financing, and contracts in one place.
- ✓ **Reduce errors and delays** with connected, automated data.
- ✓ **Win more deals** with competitive rates and terms that homeowners love.

The Benefits for Your Solar Business

Whether you're an installer, dealer, or vertically integrated solar company, this integration is built to make your life easier — and your margins stronger.

Faster Approvals

Smart, connected workflows mean less back-and-forth and fewer bottlenecks.

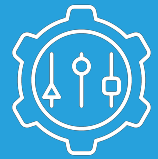

Greater Accuracy

Reduce costly errors that can derail projects.

Higher Close Rates

Offer competitive financing options without slowing down the sales process.

Adaptability

Stay ahead of regulatory changes without missing a beat.

Enerflo is an All-in-One Solar Sales & Install Platform

For Sales Dealers. For Installers/EPCs. For Hybrid Orgs. For Your Customers.

Enerflo is custom configured software for your solar sales and install processes. With more integrations than any solar platform, Enerflo helps you consolidate your tech, centralizes and standardizes your data, creates process efficiencies that help you get to NTP faster, reduces your project duration -- and much more.
